Tech Rider 2027

LIVE SET · ORGANIC CONSCIOUS ELECTRONIC · DOWNTEMPO · FOLKTRONICA · TRIBAL / CHILL HOP

Stage plot, channel list, gear and hospitality for Intiche's live set.

Everything here comes from Intiche's existing tech rider (a PDF dated 2026 and the Intiche site page). It is only restructured for web and print. Points marked "To confirm" are unclear or missing in that document; Intiche will confirm them. TO CONFIRM · 12

TO CONFIRM WITH INTICHE

Open points. These are questions, not assumptions: each is unclear, missing or possibly out of date in the original rider.

1. Channel 3 is missing from the original channel list (it runs 1, 2, 4, 5, 6).
2. Microphone for channel 5 is written “SM 59” in the original. Please confirm the exact model.
3. How many DI boxes or stage-mixer inputs the venue must provide is not stated (channels 1 and 2 go out as “DI / stage mixer out”).
4. Stage size is written “6.x 4. mts.” in the original; read here as 6 × 4 m.
5. Power: “3 standard, 4-pin grounded”. Plug type and voltage are not specified.
6. Monitors: the text asks for 2 stage monitors (minimum), but the original plot draws one. Quantity and monitor type to confirm.
7. The stage plot does not show which side faces the audience.
8. Gear: the original list is titled “Gear”. It does not say which items travel with the artist or whether any backline is expected from the venue.
9. Meals: “2/3” is ambiguous (two or three meals?).
10. Hotel: number of nights, rooms and people travelling are not stated.
11. Version: the original PDF is titled “2026” while its web page is titled “2027”. Confirm that nothing has changed for 2027.
12. Not covered by the original: soundcheck length, load-in and changeover times, set length, PA / front-of-house and sound engineer, lighting, flights and fees (fees and travel are discussed in the booking request).
